**Notes** – The installation includes a pump, filter and hose for dispensing fuel. This is a basic fueling system, sized as requested with a capacity of 55 or 250 gallons of biodiesel for a delivery interval to be set as requested. People’s Fuel Cooperative operates its own consumer education and advocacy organization that maintains the California Department of Weights and Measures Variance for use of high blend biodiesel. Biodiesel is sold as a legal road fuel. The taxes which are included in the above price are the California State Road Excise (\$0.18), Federal Road Excise (\$0.244) and all applicable sales tax (San Mateo 8.25%). The biodiesel we deliver is of the highest quality and has been tested to ASTM standards. A Certificate of Analysis is available upon request. Currently all items are in stock. Delivery can be scheduled within 5 days of receiving your order. Please contact us if you have any questions. Fuel prices are guaranteed for three days from date of quote. Thank you for choosing to use a cleaner, renewable fuel.

**Payment Terms** – Cash On Delivery (COD)
